

# Yelena Crosston

**Occupation:**

Fashion designer.

**Dream occupation:**

Feeling blessed to do what I love (Crosston creates clothes for women to enhance and show their inner and outer beauty).

**What I like to wear:**

I appreciate uniqueness and individuality in clothes as well as in people. It depends on the mood, whatever makes me feel comfortable and beautiful at that particular moment, but jeans play a big role in my closet.

**What I will never wear:**

Taking into consideration my profession, I really can't say that I will never wear something — and that is an exciting part of my life.

**My biggest clothing mistake:**

When I look back at some of my pictures and think "what in the world I was thinking?" But back at that particular moment, I thought it looked cool, so I don't consider it as a mistake.

**I describe my style as:**

Easygoing and as effortless as is possible.

**My signature item:**

Literally, my signature items are things that I design for myself. And confidence; we all lack it sometimes but it is the best accessory you can ever have in your closet.

**In one word, my look is:**

Different.
